|          |   |           |
|----------|---|-----------|
| <b>1</b> | <b>Introduction</b>   | <b>1</b>  |
| <b>2</b> | <b>Concepts and Terminology</b>                                   | <b>7</b>  |
| 2.1      | Data Types . . . . .  | 7         |
| 2.1.1    | Vector . . . . .  | 7         |
| 2.1.2    | Set . . . . .   | 8         |
| 2.1.3    | Sequence and String . . . . .                                     | 8         |
| 2.1.4    | Tree . . . . .  | 9         |
| 2.1.5    | Graph . . . . .   | 10        |
| 2.1.6    | Node in a Graph . . . . .   | 12        |
| 2.1.7    | Multiple Data Types . . . . .                                     | 12        |
| 2.2      | Machine Learning (ML) . . . . .                                   | 13        |
| 2.2.1    | Paradigms . . . . .   | 13        |
| 2.2.2    | Estimating Parameters: Model Optimization . . . . .               | 15        |
| 2.3      | Marketing . . . . .   | 15        |
| 2.3.1    | Definition of Marketing . . . . .                                 | 15        |
| 2.3.2    | Markets . . . . .   | 17        |
| 2.3.3    | Marketing Concepts . . . . .                                      | 18        |
| <b>3</b> | <b>Target Marketing</b>   | <b>21</b> |
| 3.1      | Market Segmentation . . . . .                                     | 21        |
| 3.2      | Market Targeting . . . . .  | 23        |
| 3.2.1    | Segment Evaluation . . . . .                                      | 23        |
| 3.2.2    | Segment Selection . . . . .                                       | 24        |
| 3.3      | Market Positioning . . . . .                                      | 25        |
| 3.3.1    | Identifying Competitors: SWOT Analysis . . . . .                  | 25        |
| 3.3.2    | Understanding Competitors: Perceptual Map . . . . .               | 26        |
| <b>4</b> | <b>Relationship Marketing</b>                                     | <b>35</b> |
| 4.1      | Customer Relationship Management: Idea<br>and Objective . . . . . | 35        |
| 4.1.1    | Profitable Customer . . . . .                                     | 36        |
| 4.1.2    | Extracting Profitable Customers – RFM Analysis . . . . .          | 37        |
| 4.1.3    | Customer Loyalty Satisfaction . . . . .                           | 39        |

|          |   |           |
|----------|---|-----------|
| 4.1.4    | Customer Lifetime Value (CLV) . . . . .   | 40        |
| 4.2      | Retention Marketing . . . . .   | 41        |
| 4.2.1    | Understanding Customers: Marketing Funnel . . . . .                                       | 42        |
| 4.2.2    | Boosting Customer Loyalty . . . . .   | 44        |
| 4.3      | Marketing Communications . . . . .  | 45        |
| 4.3.1    | Types of Communication Channels . . . . .   | 45        |
| 4.3.2    | Capturing Data through Communication Channels . . . . .                                   | 45        |
| <b>5</b> | <b>ML for Marketing</b>   | <b>47</b> |
| 5.1      | Organization of this Chapter . . . . .  | 48        |
| 5.1.1    | Regular Machine Learning . . . . .  | 48        |
| 5.1.2    | Feature Learning . . . . .  | 50        |
| 5.1.3    | Kernel Learning . . . . .   | 51        |
| 5.2      | Regular Machine Learning . . . . .  | 51        |
| 5.2.1    | Learning Vectors . . . . .  | 51        |
| 5.2.2    | Learning Nodes in a Graph . . . . .   | 63        |
| 5.2.3    | Learning Multiple Data Types: Data Integrative<br>Learning . . . . .                      | 68        |
| 5.3      | Feature Learning . . . . .  | 71        |
| 5.3.1    | Feature Selection . . . . .   | 72        |
| 5.3.2    | Feature Generation . . . . .  | 74        |
| 5.4      | Kernel Learning/ Kernel Method . . . . .  | 76        |
| 5.4.1    | Kernel Function . . . . .   | 76        |
| 5.4.2    | Kernel Learning/ Kernel Method . . . . .  | 77        |
| 5.4.3    | Kernel Method Example: Support Vector Machine . . . . .                                   | 77        |
| 5.4.4    | Pros and Cons of Kernel Learning . . . . .  | 79        |
| 5.5      | Key Points . . . . .  | 80        |
| 5.5.1    | Squared Distance and $L^2$ Norm . . . . .   | 80        |
| 5.5.2    | Rayleigh Quotient . . . . .   | 81        |
| <b>6</b> | <b>ML for Target Marketing</b>  | <b>83</b> |
| 6.1      | Data . . . . .  | 83        |
| 6.1.1    | Customers . . . . .   | 84        |
| 6.1.2    | Products . . . . .  | 85        |
| 6.2      | Market Segmentation . . . . .   | 87        |
| 6.2.1    | Clustering (Unsupervised Setting) . . . . .   | 88        |
| 6.2.2    | Classification (Supervised Setting) . . . . .   | 97        |
| 6.3      | Market Targeting . . . . .  | 101       |
| 6.3.1    | Evaluating Segments . . . . .   | 101       |
| 6.3.2    | Selecting Segments Using Customer Features . . . . .                                      | 106       |
| 6.4      | Market Positioning . . . . .  | 107       |
| 6.4.1    | SWOT Analysis . . . . .   | 107       |
| 6.4.2    | Generating Perceptual Map . . . . .   | 109       |
| 6.4.3    | Finding the Suitable Place for a New Product against Com-<br>petitors in Market . . . . . | 128       |

|          |  |            |
|----------|--|------------|
| 6.5      | Summary of Machine Learning for Target Marketing . . . . .                                 | 132        |
| 6.5.1    | Data Space on Customers and Products . . . . .   | 132        |
| <b>7</b> | <b>ML for Relationship Marketing</b>   | <b>135</b> |
| 7.1      | Customer Relationship Management . . . . .   | 135        |
| 7.1.1    | Learning (Customers $\times$ Products)-Matrix . . . . .                                    | 135        |
| 7.1.2    | Detecting Profitable Customers . . . . .   | 144        |
| 7.1.3    | Customer Loyalty Satisfaction and Customer Lifetime Value                                  | 146        |
| 7.2      | Retention Marketing: Learning Marketing Funnel . . . . .                                   | 152        |
| 7.2.1    | Data Assumption . . . . .  | 153        |
| 7.2.2    | Data Acquisition . . . . .   | 154        |
| 7.2.3    | Problem Setting . . . . .  | 155        |
| 7.2.4    | Discrete Approach . . . . .  | 156        |
| 7.2.5    | Probabilistic Approach . . . . .   | 159        |
| 7.3      | Market Communications . . . . .  | 162        |
| 7.3.1    | Optimizing Market Communication Channels . . . . .   | 162        |
| <b>8</b> | <b>ML for Database Marketing</b>   | <b>167</b> |
| 8.1      | Matrices (without Similarity Matrices) Sharing Instances . . . . .                         | 169        |
| 8.1.1    | Supervised Learning . . . . .  | 170        |
| 8.1.2    | Unsupervised Learning: Clustering . . . . .  | 171        |
| 8.1.3    | Unsupervised Learning: Matrix Factorization (Collaborative Matrix Factorization) . . . . . | 175        |
| 8.1.4    | Examining Interactions between Features . . . . .  | 181        |
| 8.1.5    | Notes . . . . .  | 184        |
| 8.2      | Matrices (with Similarity Matrices) Sharing Instances . . . . .                            | 185        |
| 8.2.1    | Supervised Learning . . . . .  | 186        |
| 8.2.2    | Unsupervised Learning: Clustering . . . . .  | 187        |
| 8.2.3    | Unsupervised Learning: Collaborative Matrix Factorization                                  | 190        |
| 8.3      | Matrices Sharing Instances and Features . . . . .  | 193        |
| 8.3.1    | Unsupervised Learning: Clustering . . . . .  | 195        |
| 8.3.2    | Unsupervised Learning: Collaborative Matrix Factorization                                  | 199        |
| 8.4      | Notes . . . . .  | 216        |
